A Shock to the System, Powers of Christ: Conclusion

Saturday, December 4, 2021 10:36 am

Humans have thought of themselves historically as quite powerless. This powerlessness has produced guns, jails, and security systems.

Christ on the other hand, is quite powerful without the use of guns, jails, or security systems. Christ is a creative force. While you as Christ, will often not know a specific person or their needs, Christ goes into auto-drive and produces miracles that keep on giving, in others.

Knowing about the ten powers of Christ will help you as an aspect of Christ, to get to know yourself better, and become familiar with your own power. Try it out. Give it a try with people and situations you are familiar with. Especially use it within your own life. You are Christ and you are powerful!

End Time: 10:44 am
